From the Course:

Understanding Docker Run, Dockerfile, Docker-Compose for Beginners

Install Docker Desktop for MacOS Step by Step

<https://docs.docker.com/docker-for-mac/install/>

You normally need to sign up first in Docker-Hub to download docker. Officially, there is no other way – at least none that I found. I have therefore copied the direct download link here, so, if you really don't want to signup to Docker-Hub then download it directly.
